

Special Selectboard Meeting April 12, 2010

Present from the Listers: Dave Cushman, Rosalie Towle and Chris Welch

Present from the select board: Jim Brigham, Sharon Petersen, Bonnie Cray and Nate Pero

The meeting was called to order by Cray at 7:00 p. m. Welch opened the discussion explaining the need for added space, better ventilation and more light. Towle stated that since she has been a lister for only a year that she would like to be near the Town Clerk so she can answer questions that she may have. It was also noted that the Tax Maps will be done this year and more space will be needed to do that.

There was a discussion about the capability of a lap top computer that could easily be moved to either site; (the Community building or the office). Cushman and Welch felt that the wireless signal would reach the community building area. Towle will bring her computer down to see if this is possible.

Motion by Cray seconded by Brigham for Welch to look into and purchase a new lap top computer for the listers as money is available in the budget for this expense. Welch stated that there is also an expense for installation of Windows XP and the NEMRC software that they need to do their work, so noted. Welch will keep the select board informed of his findings. The vote was unanimous.

A motion was made by Brigham and seconded by Petersen to adjourn the meeting at 7:30 p.m.
